

Wireless Conference Speakerphone

ALVPOD5

The ALVision ALVPOD5 Wireless Conference Speakerphone is a professional audio solution designed for clear and effective communication in huddle rooms, meeting rooms, and conference spaces. Engineered with a built-in multi-microphone array and high-fidelity speaker, ALVPOD5 ensures natural voice clarity for both local and remote participants.

With support for dual extension microphones, the system expands voice pickup coverage, making it suitable for medium to large meetings. Advanced digital audio processing ensures echo cancellation, noise suppression, and stable voice transmission for uninterrupted conversations.

- Wireless Conference Speakerphone System
- Built-in 4-Microphone Array
- 360° Omnidirectional Voice Pickup
- Supports Dual Extension Microphones
- Hi-Fi Speaker for Clear Audio Output
- DSP Audio for Echo Cancellation & Noise Reduction
- Wireless & USB (Type-C) Connectivity
- Compatible with Major Operating Systems

APPLICATIONS

- Corporate Meeting Rooms
- Huddle & Small Conference Rooms
